25X1A5a1

1. [REDACTED] was employed two working days, 17 and 19  
August 1954.

25X1A5a1

2. [REDACTED] made a final review of the D/GG contribution  
to NIE 11-6-54, worked out the mathematical hypotheses and con-  
clusions resulting from the substitution of the values of the  
Krasovskiy Ellipsoid for the Hayford in the International Gravity  
Formula. In addition GG/X interests in the forthcoming Assembly  
of the International Union of Geodesy and Geophysics were discussed  
in detail with the view of defining [REDACTED] objectives in 25X1A5a1  
obtaining the desired information in the course of his functions  
as an official delegate to the Assembly.

3. In connection with this work [REDACTED] was shown 25X1A5a1  
reports classified through SECRET.
